

Priority 4 - Facilities

In order to assure that we have the facilities and infrastructure to optimally support the program of the school and all within our school community, we will:

Key Initiatives:

F.1. - Conduct an audit of existing facilities to determine optimal usage of what we have.

F.2. - Create a campus master plan to include, among other things:

- Innovation Lab/Makerspace
 - Life skills space
 - STEAM Lab
- Visual and performing arts spaces
 - and more

F.3. - In creating the facilities plan pay particular attention to flexible spaces that bridge rather than contribute to silos.
