

Student Tips For Successful Learning

1. Create a designated learning space in your home.

- Your work area should be separated from any distractions like video games, your cell phone or I-Pad, and any TVs.
- Gather any supplies you will need like your computer, notebooks, pens or pencils, and any textbooks.

2. Make sure your computer is fully charged

- If possible, leave your computer plugged in throughout the day.

3. Show up and be ready to learn each day

- This means waking up early enough to get up, brush your teeth, get dressed, have breakfast, and login to Wolf School Connected.
- Daily attendance is expected (with the exception of illness or emergency).

4. Follow your teacher's instructions

- It's still important to practice the Wolf Way at home so work hard to follow all directions.
- This also means not visiting outside website or programs during school time.

5. Practice whole body listening

- Practice whole body listening with both your teachers and your classmates.
- Eyes on the speaker, brain focused, and a calm quiet body.

6. Put all personal devices away

- Just as required in school, all cellphones and any other personal electronics should be off and away.

7. Classroom rules still apply

- Ask permission before leaving your workspace.
- Independent work should be completed as instructed by your teacher.

8. Raise your hand

- Use the raise your hand feature at the bottom of the "participants" box when you have a question or comment.

9. Be organized

- Review your daily schedule.
- Keep up with assigned work.
- Be sure to check your daily schedule and assignments regularly.

10. Appropriate Behavior is expected

- All online behavior should be kind.
- Wait until you are called upon to speak.
- Stay on topic.
- When speaking, be sure to use an appropriate volume.
- Think before you speak - if you wouldn't say something face to face, you shouldn't say it online.
- Be present and engaged in the lesson.

11. Practice flexible thinking

- Be patient and understand there might be some unexpected bumps. But we'll get through it together!

12. Work to the best of your ability

13. Take care of yourself

- Be sure to get enough sleep, go outside when you can, and participate in all movement breaks.

14. Practice Good Digital Citizenship

- If asked to find outside resources, only visit trusted, safe sites.
- Don't give away any personal information online.
- Talk to your teacher or a trusted adult if you see something online that makes you uncomfortable.

15. Ask for Help

- We know this is new but even though we won't all be in the same room, we are still all in this together. Reach out at any time if you have any questions or just want to check in.
